TUESDAY, SEPTEMBER 12. 1738.

91. 1004.

Constantinople, July 11. O. S.

IN the 5th Instant the great Guns of the neighbouring Castles were fired, to proclaim to the People the Tidings of an Action that has happened in Hungary between the Ottoman Troops and those of the Emperor; and next Day the Chief Dragoman, or Interpreter of the Porte, went and told the Ambassadors of the Foreign Powers, that the Grand Seignior would have them to know, that his Forces had gained a considerable Advantage over the Imperial Army in Hungary. The Dragoman tack'd all the Circumstances to it which commonly attend the Relation of a Victory, and said to the Ambassadors, that his Highness looked upon this Event as very glorious to his Arms. It being an established Custom at the Porte to make a Present to the chief Interpreter, when he comes to bring any News of Importance, each of the Ambassadors of Great Britain, France and Holland, have, in compliance with the said Custom, made him a Present of a Gold Watch.

'Tis worth our Readers Observation, that the Engagement in which the Turks boast of having obtained the Advantage, is that which happened on the 12th of June O. S. with the Imperialists near Cornia, wherein the Turks were defeated, and forced to abandon the Field of Battle, with the Loss of divers Cannon, and several thousand Men killed. Yet notwithstanding this is so true, the Muratza Bashaw, and the Toz Bashaw, who commanded in this Action, have sent Account of it hither, the Circumstances of which are perfectly different, and so disguised into the Bargain, that their Account says, the Seraskier Elias Mehemet Bashaw, forced the Germans Intrenchment near the Mountain of Cornia. And 'tis for Advices of this Nature, that the Porte caused the Cannon to be fired, and a Victory to be notify'd to the Ambassadors.

The Porte seems so far from being apprehensive of any Breach of Faith on the Part of Thomas Kouli Kan, that we are assured on the contrary, that he has sent two Ambassadors hither, and that they will be here in a few Days. The Contagion begins to rage again in this City, and the Ambassadors of Great Britain and Holland reside for the present in the Village of Belgrade near this City, where each has a Retinue of 86 Persons. The Bashaw Count de Bonneval continues here, and assists in all the Divans, and at all the Conferences which are held on the Affairs of Hungary. We hear there has been a Fight lately in the Black Sea, between the Grand Seignior's Fleet and the Russian Squadron, and that the former was worsted.

Belgrade, Aug. 17. O. S. 'Tis certain that it was agreed by the Capitulation of Orsova, that the Garrison should march out with their Artillery, Arms, and Baggage, and the other military Honours. Tho' the Enemy had begun to batter the Place, it would not have surrender'd so soon, if the Danube had not been so shallow at that Place as to give the Beliegers an Opportunity of passing over the Sand Banks with which Orsova is encompass'd, and of making a general Storm upon the Body of the Place. The Emperor's Army, before it pass'd the Danube, was reinforced at Cubin by the Regiments of Cultralliers of Lanthieri, St. Ignon, and Diemar, by two Squadrons of Caraffa, and two Regiments of Foot of Konigsegg and Old Daun. The Bridge over which this Army pass'd that River is 1500 Foot long, and consists of 103 Boats. It has been resolv'd to let it remain where it is, in order that it may be of use another time, when it shall be thought fit to return into the Bannat of Temiswar. The Head of the Bridge, which is on the Territory of Servia, is defended by a Fortification. The Army which is near Semendria, is encamp'd in such manner as to form a Square, whose first and second Divisions turn their Backs to each other, and the Cavalry takes up the two Sides or Wings of it. As the Workmen employ'd in the Fortifications of this City were digging, they found a great Quantity of Coins, of sundry Metals, which were in Use among the Greeks and

Romans, besides several Figures of Pagan Deities, and other Antiquities. Since some Troops have been sent from hence to the Army, the Garrison consists of 8 Battalions, besides a Company of Grenadiers and 100 Hussars.

Venna, Aug. 23. O. S. The Courier that was dispatched to the Marquis de Villeneuve, the French Ambassador at the Porte, is returned hither with Letters from that Minister, wherein he says, that the Grand Seignior is dispos'd to make Peace with the Emperor on reasonable Terms; but that he demands that Russia be excluded. As we are assur'd that the Porte has caused the same Proposal to be made to the Court of Petersburg, and that the Emperor is resolv'd strictly to perform all the Engagements subsisting betwixt him and Russia, his Imperial Majesty has reject'd the Grand Seignior's Proposals, and seems determin'd to continue the War.

Breslau, Aug. 23. O. S. The States of this Principality have resolv'd to grant the Emperor the following Sums as their ordinary Subsidy, viz. two Millions 91,733 Florins for the Expences of the present War, 30,000 Florins for the Chamber of the Emperor's Finances, and 10,000 Florins for the Maintenance of the Fortifications of Silesia, besides the Sums appropriated to the common Expences.

Dantzick, Aug. 25. O. S. According to the last Letters from Konigsberg, the King of Prussia daily gives new Proofs of his Charity to the Protestants of Saltzbourg, who are settled in his Dominions, and has caus'd 4 new Churches, and 12 Schools, to be built for their Youth.

Paris, Sept. 8. On the 3d Instant the Cardinal de Fleury was taken at Marli with a great Looseness and Pains in his Legs and Feet, for which Reason the King stay'd there all Night, tho' he was otherwise to have lain at la Muette. At Night his Majesty went to the Cardinal and discours'd with him a good while, as they say, on the Measures proper to be taken in case his Eminency should die. The Cardinal's Fever continued next Night, and the Day after he was carry'd to his Seat at Issy. There's great Talk of an African Lady of Distinction arriv'd here, who they say is the Daughter of the Bashaw of Tariffa, in the Kingdom of Fez, and who has made her Escape out of that Country with a Slave called Dobert, who is a Parisian, and has been for 18 Years in Slavery at Tariffa. 'Tis said she is come to France from no other Motive but a pious Design to embrace Christianity; but there are many very odd Circumstances in the History of this African Dame and her Slave. Some will have it, that she is not the Bashaw of Tariffa's Daughter. Be this as it will, she is forthwith to receive Baptism in the Parish Church of St. Sulpicius; and 'tis also said, that a Prince, as venerable for his Birth, as for his true and solid Piety, is to be her Godfather, and the Duchess of Orleans her Godmother. There's a great Concourse of People to see this Lady, who takes Care to say nothing but what is very edifying.

They write from Madrid, that among the Terms propos'd for procuring an Accommodation between the English and Spaniards, one is, that the latter shall pay 35,000 l. Sterling to make good the Damages done to the English Shipping in America.

Constantinople, July 14. Prayers are almost continually put up here to Mahomet; and certain Sanctions are seen walking in the Streets with a great Number of People, who beat their Breasts in order to implore Victory over the Arms of the Enemy. 'Tis confirm'd that the Ottoman Fleet has been defeated in the Palus Mæotis. All Provisions here are double the Price to what they were heretofore.

Dantzick, Aug. 20. O. S. Some Armenian Merchants arriv'd here, last from Choczim, in their Way to Lipsick Fair, whither they are carrying Jewels and Toys, report, that the Inhabitants of that Place are very much afraid of being besieged by the Russians, and that not long before they came away, Notice was therefore given to the Jews, to order their Affairs in such a Manner, that in case of Necessity they may retire in 24 Hours.

## SCOTLAND.

Edinburgh, Sept. 4. We hear the Magistrates of this City are resolv'd to apply for a Suspension of the

Sentence of the Presbytery pass'd Wednesday last, translating the Rev. Mr. Wallace from the Grayfriars to Haddo's Hold Kirk, without their Consent.

The Judge of the High Court of Admiralty has determin'd the Profits of the Whale (it being a Royal Fish) catch'd at Aymouth, to be the Property of the Admiral Depute for Scotland, the Earl of Findlater.

We hear, that on Sabbath last, 27th August, there was a Field-meeting held in the Parish of Kilmacomb by Messieurs Moncrieff and Thomson, occasioned by a very few mean People petitioning the Seceding Presbytery: And tho' the principal Heritors and whole Elders, to the Number of Thirteen, previous to their coming to the West, wrote earnestly to two of these Gentlemen, dissuading them from such a disorderly Step, letting them know there was no Pretence of any Intrusion in that or neighbouring Congregations, or that they were any way desired or expected by the judicious or sober Part of the People; yet such Pains had been taken to acquaint the whole Country far and near, of the Meeting, and such a Curiosity rais'd among them, that they would hear Things had not been heard fifty Years before, and such Freedom us'd in reproving Sin, and the Faults of Ministers laid open, that above 7000 People assembled; which did more resemble a great Market or Fair, than a Christian Assembly, by carrying Loads on Horseback on the Lord's Day in the middle of Divine Service, buying and selling openly, to the scandalizing of many: Yea, so insolent and ungovernable were the imperious Crowd, that they erected two Tents in a Gentleman's Inclosures, who has sustained much Loss, trampling his own and his Tenants Grass and Corn, and overturning his Walls and Inclosures: And, to shew they regard no body, made Choice of a sham Eldership, and collected a good deal of Money from the People, which the Ministers, with these Elders, took upon them to dispose of as they thought fit. By this there is erected a Seceding Session as well as Presbytery, *imperium in imperia*. People are at a Stand where it will end, since tho' they have only as yet erected Church Judicatories, who knows, when they have wrought up the Populace to a proper Ferment, but they may next think fit to amend and model the State: For what will not an Enthusiastick Spirit do?

#### Concerning Gleet and Seminal Weaknesses of all Kinds.

**ALL** judicious Physicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleet and Seminal Weaknesses, whether occasion'd by too severe purging for Venereal Injuries, violent Strains, Pollution sui, or any other Cause whatever; and that they are dangerous in their Consequences, as well as difficult to cure, is as certain, since they exceedingly weaken the Generative Faculties, infect the whole Nervous System, often bring on Hectic Fevers, a Tabes Dorsalis, or Consumption of the Back, or an Atrophy or Nervous Consumption, which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleet, Seminal Effusions, Involuntary Emissions, excessive Nocturnal Pollutions, or any Weakness of the Kidneys, Ureters, or Bladder, the Diabetes, or Incontinency of Urine, or Difficulty of holding their Water, would doubtless be glad to meet with a certain, safe, and speedy Cure, which they most assuredly may, by taking only a small Quantity of a transcendent BALSAMIC RESTRICTIVE ELECTUARY, now published for a general Good, after having for many Years been experience'd never once to fail perfectly curing the most Stubborn Gleet known, in a few Days, without Difficulty or Trouble; as also all other Weaknesses of the Back, Reins, Seminal Vessels, and Urinary Passages, which almost instantly cures, bringing to rights and restoring all those Parts and Passages to their natural Tone and pristine Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent BALSAMIC RESTRICTIVE ELECTUARY, is neither disagreeable to take, nor occasions the least Disorder, but is a wonderful Restorative in all Weakness and Decay of Constitution of any Kind, and particularly strengthens the Back, Reins, Seminal and Urinary Vessels to an immense Degree, inasmuch that in any Debility of them, one Dose of it does more than ten of any other Remedy yet found out; and all Persons fatigued with Gleet or Seminal Weaknesses of any Sort, or Weaknesses of the Urinary Vessels, who take it, will in three Days time find it so very effectual, that they will be most agreeably surpris'd at it.

When a Medicine will infallibly accomplish such a safe, speedy and perfect Cure of such difficult Maladies, as Gleet and Seminal Weaknesses are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been tried in vain; too much cannot be said in it, and this, All who ever took it for any of the above-mention'd Purposes, have readily declared.

The Price is but 6 s. a Pot, altho' for its absolute Efficacy, one Pot alone being sufficient in most Cases to accomplish a Cure, worth ten times as much, and by the Author's special Appointment, is to be had only at Mr. Radford's Toy-shop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up, with a Book of Instructions, which whomsoever carefully reads will perfectly know, when the Gleet or Weakness he is afflicted with, succeeds a Venereal Injury, whether all the Malignity of the Foul Disease is entirely eradicated or not.

Note, Ask only for a 6 s. Pot of Balsamic Electuary.

To be Sold by Auction, By Order of the Executor, on Tuesday the 3d of October, and the following Days,

This is to inform the Publick,

**THAT** I Rachael Moore, the only surviving Daughter of Mr. John Moore, Apothecary, (who formerly lived in Abchurch-Lane, but of late Years in Lawrence-Pountney-lane) am remov'd to the Pellic and Mortar upon Lawrence-Pountney-Hill, near Cannon-street, where I shall continue to prepare and sell (as my late sister Mrs. Mary Moore did) since the Decease of my late Father Mr. John Moore, being fully instructed in their true Preparation and Virtues, the following Medicines, viz. my late Father Mr. John Moore, viz.

1. The Worm-Medicines, which are allowed to be the most effectual Remedies in the World for destroying Worms, and are proper to be taken by Persons who have no Worms, for they strengthen the Stomach, cause a good Digestion, and require no Confinement.

2. The Antiscorbutick Pills and Spirits, being two Medicines of that transcendent Virtue, that striking at the Root of the Malady, they effect to Admiration the Cure of that epidemic Disease the Scurvy.

3. Medicines for the Cure of the CHOLICK, which have proved successful when all other Remedies have fail'd.

4. Likewise a Cure for the RHEUMATISM and SCIATICA.

5. An Elixir which gives Ease in violent Fits of the Stomach.

6. An Ointment that cures the Itch, tho' of long Continuance, without Bleeding or Purging; the Smell of which is no way offensive.

7. Also an Ointment that gives speedy Ease in the Pains.

8. An Elixir for young Children, which helps them to keep their Teeth with Ease, and prevents their having Fits.

9. And also an excellent Powder for cleaning and preserving the Teeth.

To be had at the said Rachael Moore's, Countess; or, The Pigeon-House: being an Introduction to a Natural History of Tame Pigeons, giving an Account of the several Species known in England, with the Method of breeding them, their Distempers and Cures.

Note, The Worm-Medicines are sold by my Order (sell'd up with Directions) by Mrs. Reader, at the Nine Sugar-Loaves in Hungerford-Market; and whoever else offers to sell them, either in Town or Country, you may be assur'd they are Counterfeits.

The only short and infallible Cure

For that reigning Disease the SCURVY, and all Scorbutick Humours, tho' arriv'd to the highest and most inveterate Degree, and ever so many Years standing, and that without any sensible Evacuation or the least Purging, which by an unaccountable Mistake is generally advis'd, although always found rather to increase and confirm the Scurvy than cure it.

By the so much famed and most pleasant Chymical DROPS:

**WHICH**, without the least Trouble,

Confinement, or any Disorder whatever, do at once bring to the true Cause of the Scurvy, and entirely destroy it, and all Scorbutick Humours and Effects, Root and Branch, so as never to return again, as many Thousands of both Sexes have experienced, and as all who take them in 3 Days time will be convinc'd by they almost instantly alter the morbid State of the Juices, purify the Blood, sweeten all the Fluids, cleanse them from Impurities, and directly clear the whole Habit from all Spots, Blisters, black and blue Marks, Itchings, foul Eruptions, or Breakings out, Weakness of the Limbs, languid Heaviness of the whole Body, wandering Pains, Weakness of the Back, and all the vast Variety of Symptoms by which the Scurvy imitates and often lies concealed under the Appearance of the Rheumatism, and many other Distempers.

And for strengthening the Stomach, immediately creating a good Appetite, causing a regular and easy Digestion of Food, and curing all windy Effects and Disorders of the first Passages (wherein proceed Head-achs, Vapours and other Indispositions) no Bitters nor any other Medicine upon Earth can compare with them, inasmuch that besides infallibly curing the Scurvy in all its Shapes and Appearances, they also assuredly and immediately cure the Green-sickness in Virgins, Worms of all Kinds in young or old, and almost all other Chronic Diseases, (which are chiefly occasioned by Indigestion and flatulent Crudities in the Stomach and Bowels) and certainly prevent Fevers, Agues, and other acute Illnesses.

They are wonderfully Cordial and Restorative, strengthen and enliven the whole Machine, and as soon as taken, make the Patient pleasantly Light, brisk and Vigorous to admiration, and are good for all Sorts of Persons, to preserve as well as to procure a sound and healthy State of Body.

But the great Reputation these so much fam'd and pleasant Chymical Drops have to universally gain'd among Persons of all Complexions, for their suddenly and infallibly curing the Scurvy and all Scorbutick Humours, and other Chronic Diseases, in such an easy and agreeable Manner, have occasioned many to imitate them, and under the same, and others under other Names: Be careful therefore not to be deceiv'd; but be sure to have the Right, which by the Author's special Appointment, are to be had only at the Countesswoman's, at the Two Blue Posts, in Haydon-Yard, in the Liberties, at 6 s. 6 d. a Bottle, with Directions.
